

TRAIN STEALERS
MET BY DEPUTIES.COLORADO COXEYITES IN JAIL
AT SALIDA.

After an Exciting Day a Force of Marshals Capture Them—Kelly Continues Down the Des Moines—Randall Well Received Through Indiana—People Against the Deputies.

SALIDA, Kan., May 11.—The Colorado contingent of the commonwealers which has kept Colorado and Kansas in an uproar for two days has surrendered unconditionally to Marshal Neeley. They were 450 strong and every man put under arrest. The surrender was made peacefully and the entire army is being taken to Topeka for trial. The special train is now en route with the captured army and is making rapid time on its return trip.

Marshal Neeley served the writs upon the Coxeyites with a posse of twenty-eight men, saying that if they refused to surrender the train the government would be asked for troops to enforce the order of the federal court.

KANSAS CITY, Mo., May 11.—Sanders' reckless army of commonwealers defied pursuit and laughed at obstacles all day yesterday. Three times their stolen train was reported stalled before cars and engines purposely run off the track ahead of them, and each time the railroad officials believed they were masters of the situation. But in less time than it took the railroad company to throw their engines from the track at one place and tear up the rails at another, the go-ahead "wealers" had built a new track around the feeble obstructions and relaid the torn-up rails with their force of something over 400 men.

These undertakings were but a few hours of enjoyable recreation for the "wealers," who, when riding, were packed in their coal cars like sardines in a can.

The army's sympathizers were hoping that the dare-devil band might run the gauntlet of United States Marshal Neeley's 100 Winchester and reach Topeka without further molestation. Once at the capital they believed the train-stealers would be free from care and penalty. The attitude of Gov. Leavelle gave this idea encouragement. The executive said nothing sympathetic when addressed on the subject by interested parties, but neither did he say anything condemnatory. He was entirely non-committal and abstained from interesting himself in the matter beyond replying to communications sent him by railroad officials or petty peace officers.

Without mishap the runaways reached Scott City, which they approached warily. They saw fifty feet of track torn up in front of the station there and 100 men with 100 rifles lined up on the station platform. The engineer reversed quickly and "threw her wide open." Before the waiting and trembling deputies had time to think their expected antagonists had disappeared in the distance whence they came. Then the deputies breathed easier and were once more courageous.

The Missouri Pacific promptly started a train east from Leoti, Kan., twenty-five miles west of Scott City to intercept the returning army.

KIND TO THE COMMONWEALERS.

People of New Carlisle Give Randall's Army a Hearty Welcome.

NEW CARLISLE, Ind., May 11.—Gen. Randall and his men are being watched by a government detective. By calculation it was ascertained that he had come to the army just a day or two after Gen. Shuman of Valparaiso had asked Secretary of State Gresham to interfere with the march of the army. He said that he was writing for German papers in San Francisco. Then he said that he was writing for German magazines. But, being closely pressed, he finally admitted that he was in the employ of the government.

The commonwealers are again moving. The arrest of the leaders and the inability of the La Porte county officials to convict them has encouraged the army. The men now brag that nothing can stop them on their route and that they will reach Washington within six weeks. Yesterday's reception at New Carlisle has added to their courage. Leaving La Porte county, where they were almost starved, where their leaders were hounded and the army almost broken up, they were received with open arms. For the first time since they organized the men ate three meals. There is still a big stock of provisions in a basement store here and the men will leave in the morning, after having been furnished with a good breakfast.

ELKHART, Ind., May 11.—Sullivan and his army of commonwealers are encamped between Mishawaka and Osceola, six miles west of this city, and expect to arrive here this afternoon at 4 o'clock.

KELLY GOES FLOATING ON.

The Industrial Navy Encounters an All-Night Balastrum.

DES MOINES, Iowa, May 11.—Reports received here from down the Des Moines river indicate that Kelly's navy put in a hard night and that the men were in a miserable plight when daylight broke upon the scene. It began to rain shortly after 11 o'clock and continued without intermission till about 9 in the morning. The men were obliged to endure all of it. All the way along the banks were people who had come to see the common-

wealers. Many were in sympathy with them and gave them flags and other things to decorate their boats and their persons and wished them godspeed.

Col. Speed will leave Des Moines this evening on the Wabash, expecting to join the army at Harvey, on the river and at the junction of the Wabash & Knoxville branch of the Rock Island. Col. Baker, who lingered behind, arranged to have three boatloads of provisions which could not be taken yesterday conveyed down the river to-day, and will take his departure over the Rock Island this evening for Oskaloosa, where he will take charge of a carload of provisions and join the army at Eddyville.

People Against the Deputies.

ELLENSBURG, Wash., May 11.—Jack Jolly and W. C. Chidester, United States deputy marshals, who were shot by Coxeyites at Yakima Wednesday night, were brought here. Jolly is resting well, but it is generally believed his wounds are fatal. Nearly 300 "wealers" are here and all are greatly excited over the affair, but there is no demonstration of any kind except open denunciation of the deputies. It is feared if they remain here trouble will result. Men continue to arrive from the west, mostly afoot.

Salt Lake Detachment.

DENVER, May 11.—The Salt Lake commonwealers, numbering 300, are marching peacefully along the line of the Rio Grande Western railroad and have not yet attempted to seize a train. The railroad company keep a train of empty sand cars running on ahead of them ready to be ditched in order to block the progress of any train that may be stolen.

MANY PASSENGERS MURT.

Train Goes Through a Bridge Near Hannibal, Mo.

HANNIBAL, Mo., May 11.—A wreck occurred at 8 o'clock yesterday on the St. Louis & Hannibal railroad at a point twenty miles south of this city known as Pence Creek. There was a waterspout Wednesday night which raised the creek and undermined a bent of the bridge, although the bridge appeared to be safe. The passenger train which leaves this city at 6 a. m. had aboard about twenty passengers en route to St. Louis. The engine passed over the bridge in safety, but the tender and express and baggage car went down with the bent to the bottom of the creek. The coach broke loose and remained on the track, but the shock tore all the seats loose from the fastenings and piled them up promiscuously. All of the passengers were more or less injured.

ARMED MEN LOOT A BANK.

Four Citizens of Southwest City Badly Wounded—One Robber Shot.

NOEL, Mo., May 11.—At 3 o'clock yesterday afternoon seven men armed with Winchester and revolver rode into Southwest City, Mo., and robbed the bank, getting all the money the bank contained, between \$3,000 and \$4,000. The citizens rallied and a gun fight took place, four prominent citizens being badly wounded. As the robbers were leaving the outskirts someone fired several shots at them, killing a horse and wounding a robber. He immediately secured another horse from a farmer who was passing and followed his pals. No resistance was offered by the citizens. A posse was made up and started in pursuit, but the robbers have a good start and will probably get away.

COLUMBUS, Ohio, May 11.—The Hocking Valley coal operators had a meeting here yesterday with closed doors. Secretary Frank Brooks stated the only business before the meeting was the matter of sending representatives to the convention at Cleveland May 15. It was decided by unanimous vote that the Hocking operators attend the Cleveland meeting in a body, and the representatives were given instructions in reference to their action in the meeting.

MARSHALL, Ohio, May 11.—The Ohio operators are quite willing that rates shall be restored, as all they ask is a fighting chance for business. The Pennsylvania operators, on the other hand, are tied up with contracts made on the 50 cents per ton basis, and these they can only fill at a loss should the scale be advanced.

BRAZIL, Ind., May 11.—The miners' strike is having a distressing effect on business in this city, and the indications are that unless the miners resume work soon every manufacturing establishment in the city will be forced to close down.

OSKALOOSA, Iowa, May 11.—The strikers from Beacon and Pekay were joined by 200 from What Cheer yesterday and marched over 400 strong to Colon, where a meeting was held, resulting in nearly an equal division in favor of the strike. WRECKED IN AN INDIANA CYCLONE

Damage Done By the Storm at Indianapolis—One Life Lost.

INDIANAPOLIS, Ind., May 11.—The first cyclone this season visited Indianapolis at 4 o'clock yesterday afternoon, creating havoc in the manufacturing district and causing great ruin to the beauty of the principal residence streets.

A child was killed.

HUNTSMAN, —, infant child of S. J. Huntsman; crushed to death in the cradle.

The following were seriously injured:

JAMES, LETTA, Miss, hurt in Archdeacon's pickling establishment.

MILLER, FRANK, Mrs., hurt in Archdeacon's pickling establishment.

The fury of the storm was over in ten minutes. In that time the mercury fell twenty-four degrees and one-half inch of rain fell.

On South Meridian street John Wagner's store and saloon was blown down, killing a baby. The roof of the Riley block at California and Washington streets was taken off and dropped through Archdeacon's pickling establishment, a block distant. The timbers crushed Miss Letta James and Mrs. Frank Miller, but did not fatally injure them.

Part of the Fordyce & Marmon mill works in West Indianapolis was wrecked and Maas' brewery suffered \$2,000 damages. The Acme Milling company's roof was rolled up and carried several blocks.

At the baseball park Butler and De Pauw were playing an exhibition game of ball. The grand stand was full of students. The east of the stand went over with a crash and a dozen people were scratched up, with serious injuries to none. The Indianapolis club's dressing rooms were scattered like so much old lumber.

In Tennessee, Illinois, Meridian, Pennsylvania and Delaware streets, the choicest residence portion of the city, thousands of trees that have stood for years were twisted off or blown flat.

The storm split before reaching the center of the city and rose in the air, which alone saved the city from a great catastrophe.

DAMAGE AT STILLWATER \$100,000.

Street Cars May Not Run for a Week and the City Is in Darkness.

STILLWATER, Minn., May 11.—As a result of Wednesday's storm the streets are impassable in the business portion and hundreds of teams and men are at work. A conservative estimate places the total damage at \$100,000. The first train on the St. Paul and Duluth road arrived at 10 a. m. Omaha trains are running in here by way of Hudson, Wis. Passengers on the Duluth are compelled to walk a distance of a mile. No street cars will run for a week or more. The man Lillgren who was washed away in the flood is still alive, but his death is momentarily expected. All the machinery and dynamos of the Electric Light company are buried under great piles of sand. The plant is located in a ravine below the big break in Third street. DEBATES ON THE TARIFF BILL.

Discussions Continue in the Senate—Attempt to Lengthen Sessions.

WASHINGTON, May 11.—When the tariff bill was laid before the senate yesterday Mr. Gallinger (rep., New Hampshire) offered an amendment concerning the tariff operations between this country and Canada. Other senators expressing a desire to speak upon this Mr. Gallinger withdrew it for the present. Some desultory discussion followed. Mr. Frye (rep., Maine) bore personal testimony to the ease with which fraud could be committed under the ad valorem system. He told of an American consul at a German port who sold blank invoice certificates at \$2.50 each.

Mr. Harris attempted to offer a resolution that the senate meet at 10 o'clock each morning until otherwise ordered. Mr. Hoar objected. Mr. Dolph (Ore.) took the floor and completed the branch of his speech the public printer desired to print, and after the absentees had been brought back to the chamber by a call of the senate Mr. Lodge got the floor and renewed his suggestion that the replies to the circulars of the finance committee should be given to the senate. Mr. Voorhees announced that the information relating to the chemical schedule would be ready to-day.

A short but sharp exchange of personalities occurred between Mr. Chandler and Mr. Voorhees, after which Mr. Allison's modified amendment was lost. Mr. Hill (New York) although present did not vote.

At 5:10 o'clock the house resolutions on the death of Representative Brattan of Maryland were presented. Appropriate resolutions offered by Mr. Gibson were adopted by the senate. The chair appointed as a committee to attend the funeral Messrs. Gibson, Palmer, Gray, Perkins and Dubois and the senate then, 5:15 p. m., as a further mark of respect, adjourned.

Senator Harris said last night he would reintroduce his resolution providing for 10 o'clock sessions to-day. The debate on it will come up to-day, as the republicans will surely fight the proposition. Senator Harris said the idea was to push the tariff. It is understood night sessions may be asked.

HONORED BY A NATION.

Monument to Mary Washington Dedicated at Fredericksburg.

FREDERICKSBURG, Va., May 11.—The nation did honor yesterday to the memory of the mother of the "father of his country." In the presence of the chief magistrate of the country, surrounded by his constitutional advisers, by many senators and members of the house of representatives, and by patriotic men and women from many states, and amid the booming of cannon and patriotic cheers from 50,000 throats, the monument erected to the memory of Mary, mother of George Washington, was dedicated and unveiled. President Cleveland, accompanied by Vice President Stevenson, Secretary of State Gresham and the other members of the cabinet and fully one-half of the membership of the senate and house, arrived in the morning.

The formal oration was delivered by United States Senator John W. Daniel, and was one of the best efforts of that celebrated orator. In the afternoon, following the dedication exercises, the masonic lodge of Fredericksburg gave a sumptuous banquet to the distinguished guests of the city. Among the orators who responded to toasts at this banquet were the eloquent Judge Roger A. Pryor and Lawrence Washington, the direct descendant of Mrs. Mary Washington.

In the evening the people of Fredericksburg and their guests concluded the memorable celebration with a grand colonial ball, which was probably the largest and most magnificent affair of its kind ever held in Virginia.

The monument is a plain granite shaft, of obelisk form, fifty feet in height. The simple and impressive dignity of the design is most fortunate, as it comports with the severe and stately but simple character of the woman whom it will celebrate to the generations of Americans who shall behold it. The base of the monolith is a block eleven feet square, upon the face of which is the terse and simple inscription.

MARY,
THE MOTHER OF
WASHINGTON.

The monument will not commemorate alone the life and character of Mary Washington. It will also call to the minds of all acquainted with the history of its erection the significant fact that it is the first monument to be erected by the women of any country to celebrate the virtues of their own sex.

Calloun gave her 3 to Selby and the others all voted for their home candidates. The second ballot was the same. The fifth was regular for the favorites, but on the sixth Downing was nominated. Four hundred and seventy-five ballots were taken altogether.

Debs Supports Hill.

TERRE HAUTE, Ind., May 11.—President E. V. Debs of the American Railway union, denies the statement that the Great Northern railroad is not living up to the agreement with the men. He said he had received a long message from Mr. Hill regarding the cases now in doubt. Any man found guilty of criminality during the strike will not be re-instated. There are but few of such cases. Mr. Debs expressed the belief that Mr. Hill would do the fair thing by the men and does not anticipate any further difficulty.

To Recommit the Tariff Bill.

WASHINGTON, May 11.—Senator Hill has made up his mind to offer a motion in the senate at the first opportunity to recommit the tariff bill.

DON'T LET POLITICS HURT THE ASYLUM.

ROCK COUNTY PEOPLE GIVEN WARNING.

New Buildings Often Mean a Change of Administration So That Place-Hunters May Be Cared For—This Should not be the Case in Rock, a Correspondent Urges.

Rock county's acceptance of the new asylum prompts a correspondent to write:

"We learn from reading the annual reports of the national conference of charities and corrections that more than one-half of all the taxes we collect is consumed in supporting the charitable and penal institutions of the country. We also learn that we bring upon ourselves needless burdens of taxation because we too frequently allow partisan politics to govern our actions, and by our own actions instead of making the majority of our of our institutions self supporting we vote upon ourselves debt to try to keep up with the ever increasing demands which we the people are helping to swell and grow year after year. Seven years ago in Rock county when the county board urged Peter Aller and his family to try their efforts at the Johnstown poor farm that institution was a burden over and above the income to the tax payers. The last annual report shows that the farm with the average increase a little more than paid expenses. But who of the taxpayers of this county have ever published a word of commendation in behalf of Mr. Aller and his family for the good they have done to the tax payers, or to the unfortunate ones that have been placed under their care? None that we know of; so this seems a fitting time now they are entering upon a new era in charity work for the county with their burdens so much increased, to say a word of commendation to encourage them in their advancing years. Well done faithful family. We predict for you another seven years of work for this county at the head of the new county buildings, and that long before that time is passed you will make the new 'old' farm support the ever increasing family, and that your work will be so appreciated by the tax payers of the county as to have a salary somewhere near adequate to the services you all perform.

"You are nearer the county seat, it is quite likely the great public educator of the people, the public press will bring the institute over which you preside more prominently before the tax payers and the supporters of the charity will know better the worth of such a work, and will be more on the alert to devise means to keep down the increase of unfortunates. This can only be accomplished by educating the people the value of health and independence, also by watching out that party politics does not have anything to do in running the people's institutions.

"As a hospital flag, on every battle field of civilized warfare, is an emblem of neutrality and sacred guarantee of protection to the sick or wounded men; so, and more so, in political warfare, the asylum for our dependent and defective classes should be sacred from the attack of contending parties."

"Let the people see to it that they do not needlessly increase their burdens, or that the dependent and defective ones have their burdens increased by partisan changes of good to bad officials.

"The tendency in nearly every part of our country is to vote to have what Rock county has, new and artistic buildings then to allow the professional politicians to push into place an influential friend in the place to compensate for some political favor. It may be well in the beginning of the new order of county charities to watch as well as 'prey' which is too frequently done.

"With a heavy vote of commendation to Mr. Aller's family I am sincerely for charity."

THROUGH SLEEPERS ARE EMPTY.

Railroad Men Say Travel Is Very Light This Spring.

Passenger traffic on the railways is very light and the railways are feeling the democratic times as much as others.

"To show how few people travel now," said a railroad man, "just take the sleeping car on through night trains. Formerly a man had to telegraph ahead in order to secure a berth but it is not so now. A sleeper will accommodate sixty people, often you

see the train pass here without a person in it. Sometimes two or three berths are occupied, but seldom do you see the car filled to its capacity. The local travel is best on Mondays and Tuesdays."

CRISP NOTES FROM NEAR-BY TOWNS.

County Leaf Moves Slowly.

There has been considerable movement in '93 leaf outside of Rock county but most of the deals in Edgerton and Janesville have been of '92. Some new leaf changed hands in Edgerton. Jensen sold 13 cases, Childs 50, and G. Scharfenberg for Mr. Shultz 55 cases.

CAN'T CHOKE IT DOWN.

When the democrats talk about resorting to arbitrary means for shortening the tariff debates in the senate, they ignore the important fact that the republicans have not been permitted to discuss the pending bill in committee, or to know anything about the various changes that have been made in it. "We never will allow the bill to pass," Senator Sherman says, "until we have had the opportunity to read in the senate chamber every clause and every word of it, and every clause and every word shall be subject to our scrutiny." This is not a threat of filibustering for party purposes, but simply a notice that ample time will be insisted upon for the thorough and careful consideration of a measure which, as Mr. Sherman declares, "strikes down many of the country's most important industries."

MONEY MADE IN TOBACCO.

A bitter truth that Rock county farmers have come to realize is voiced by the Edgerton Reporter when it says: "How consoling to the domestic tobacco growers to read that the dividends of some of the Sumatra syndicates have reached as high as forty per cent for the year past. While the farmers of this country have been selling their tobacco at less than the cost of production, the Dutch capitalists can receive forty per cent on their money invested in Sumatra plantations. And still there are statesmen at Washington ready to lower the only barrier that prevents the flooding of our country with imported leaf and increase the already large dividends of the Sumatra companies. The whole trend of the Wilson tariff bill is towards assisting foreign competitors in American markets."

The industrial army absurdity is heralded by some people who know no better, as a labor movement. Hugh O'Donnell, the labor leader, who was with the Coxey army on its march to Washington as a newspaper correspondent, says that instead of representing the labor classes, "it is altogether a hopeless, helpless, pitiable crew, with the chief of fakirs and bombasts for a leader."

It is by no means discreditable to Senator Patton, appointed by the governor of Michigan to fill the unexpired term of the late Senator Stockbridge that he has no public record. On the contrary it is highly creditable. Professional office holders get too much anyhow.

When the days of miracles return, corporation lawyers may be expected to publicly abuse corporations; but until then they will continue their efforts to prove that corporations are blessings—for them, if not for the general public.

Henry Watterson correctly diagnosed Breckinridge's Lexington speech as "a strange exhibition of marvelous effrontery, wretched taste, and mentally and morally oblique casuistry," and his opinion cannot be charged to republican persecution.

Breckinridge's campaign for a congressional nomination threatens to become as sensational as the recent trial was. If it ends as the trial did—against Breckinridge—it will please the respectable people of the country.

If the voters of the seventh congressional district of Kentucky can afford to send Breckinridge back to congress as a specimen of their manhood they can afford to do anything.

There must be some mistake in the name—Allman, of the populist candidate for governor of Pennsylvania. He must be all something else, or he wouldn't be a populist candidate.

Mr. Gladstone regrets that free trade has been steadily losing ground for thirty years. If he could live a few years longer he would see the time when such a thing as free trade will be unknown in any country.

Mr. Cleveland says he is too busy to go fishing. He is doubtless waiting for Memorial day.

She and another lady went over to Covington, Ky., and when on their way were stopped by the negro. Their screams frightened him and he fled. Policemen succeeded in arresting the negro, and Mrs. Selleck was compelled to give bonds to appear as a witness at the trial. She expects to be called back to Covington at any time. She returned some days ago.

JOHN C. HARLOW has reason to feel that he got out of that wreck pretty easily.

HARLOW'S ESCAPE SIMPLY A MIRACLE

JANESVILLE MAIL CLERK'S
AWFUL PERIL.

Tender of the Engine Crushed His Car to Splinters and Pinned Him and His Helper to the Floor—Scenes Around the Wreck at Eau Claire.

John C. Harlow, with his broken arm in a sling, found eager questioners awaiting him at the Northwestern depot this morning. He reached Janesville at 1 a. m., happy to think he had escaped from the Eau Claire wreck alive.

Mr. Harlow was chief clerk of the ill-fated mail car that bore the brunt of collision. His car was next to the engine. In the engine cab just ahead James Jeffries was killed instantly. In the express car next behind Messenger W. T. Burt was crushed to a pulp. Harlow's own helper suffered a broken leg, bruises about the head and face and internal injuries. The mail car was so shattered that nothing remained but kindling. Despite all this Mr. Harlow's only injuries were bruises about the body and a broken bone in the right hand.

Engineer Jeffries was instantly killed, being crushed to death and wedged in between the engine and tender, where he remained until about 6 p. m. before his body could be reached. He was the oldest engineer in point of service on the line.

The crew of the freight train escaped uninjured, Engineer McKay and his firemen jumped just in time to save themselves. The conductor of the freight was J. H. Burns.

Ground Strawn with Fragments.

The mail, baggage and express cars were smashed to splinters. The two engines were utterly wrecked and six freight cars with their contents were scattered in every direction. Engineer Jeffries remained at his post until everything that lay in his power was done to save life. The crash came as he was ready to leap from his post.

It is stated that Conductor Bouse and Engineer Jeffries of the passenger train, disobeyed orders which resulted in the accident.

Mr. Harlow and the other wounded men were hastily cared for at St. Mary's hospital in Eau Claire, but the Janesville man refused to wait. He had his registers and receipts to look after and came through with the train. His wife and mother were among those who met him on the platform here at 1 a. m. but after a few reassuring words he stepped back into the car and the train pulled out. He turned in his books at Chicago this morning and came back on the noon train.

Tender Telescoped the Car.

"All that I knew about the accident," he said to a Gazette reporter, "was that something hit me and I went down. Both I and my helper were in the rear end of the car. The tank of the engine crushed through the front of the car and came the whole length of the car. Just as it struck us it raised a little and left room underneath. That was all that saved us from being killed instantly."

"When they passed the car at first nobody supposed we could possibly be alive. They began work on other cars first but finally heard our cries. It took thirty minutes to chop my helper out and forty minutes to free me. The express car in which Burt was found dead was telescoped by the baggage car behind it just as ours was by the tender."

Burt's death will remind many superstitious ones of the old belief about "resuming an old position." Burt some weeks ago had been taken off of his run through Janesville and placed upon another route. Sunday he was notified that he should take his old position and yesterday morning left Minneapolis on his first trip out.

Mrs. B. A. Vaughan of Belvidere, Wis., who is visiting her sister, Mrs. L. S. Hillbrandt, was in the wreck yesterday and escaped unhurt but her new trunk was badly smashed.

PRaise the Shaw FOR MANY MERITS.

FAMOUS PIANISTS PRAISE THE
GAZETTE PRIZE.

Everybody Who Has Examined the Instrument at S. C. Burnham & Co's Says the Things Said in Its Favor Were Justified—Conditions of the Contest.

What is thought of the Shaw piano by pianists, vocalists and teachers. This is not hard to find out.

When The Gazette chose an instrument it picked out the best to be had. The girl who wins this instrument may well rejoice. Here are a few statements published in St. Paul papers by those who have used the Shaw:

OSCAR L. LIENAU, tenor singer and teacher of the voice writes:

ST. PAUL, MINN., AUG. 2, 1892. GENTLEMEN: I am extremely pleased with the Shaw Piano, which I purchased of you. I have used it for some months and consider it a superior instrument. Its clear full tone and elastic touch is a delight not only to myself, but to my many friends. Its sweet singing quality being especially noticeable, and I shall be pleased to recommend it to my pupils, etc., I am, yours respectfully,

OSCAR L. LIENAU.

Frederick Leavitt, the expert piano tuner:

ST. PAUL, MINN., MAY 1, 1892. GENTLEMEN: As compared with other first class instruments, the Shaw piano has the charming characteristics of each—all in one. Not a break in the scale. No rattling in the action. Never harsh nor metallic in tone. Stays in tune. Such is my admiration for the piano that I would not trade, "even up" for any upright made. My own Shaw has not required any attention during the past year and is in almost perfect tune now. Yours respectfully, FRED. LEAVITT.

Professor William Manner, organist at the Cathedral and leader of the German Mannerchor Singing society says:

ST. PAUL, MINN., MAY 6, 1892. I admire the Shaw Piano very much. Their construction is most excellent, the tone is round, rich and mellow, and altogether I consider them one of the very best pianos made today in this country. I can cheerfully recommend them. Respectfully yours,

W. MANNER.

Those who wish to learn for themselves the quality of piano offered by the Gazette are urged to visit S. C. Burnham & Co's store. Several patterns of the Shaw are there shown. These instruments rank in the markets of the country just as Chickering's, Steinways and Knabes, the four occupying first place. Everybody who has seen the Shaw piano is enthusiastic in its praise. It has a pure ringing tone, and its action is very fine. These qualities are what would be expected of a Shaw piano and The Gazette made no mistake in choosing that instrument.

A Disputed Case.

Many persons dispute the question as to whether or not baldness caused either by disease or neglect can be cured. In deciding the question allow us to say that most cases can be cured, while others can not. Only a specialist of years of experience can tell this. Professor Birkholz, the world-renowned German specialist of the Masonic Temple, Chicago, who has cured a good head of hair or beard can consult him in private, and free of charge. After a thorough examination, which costs you nothing, we will tell you whether or not you may procure that trait of personal adornment so necessary to your existence, and if we find that the follicles are not all dead, we will treat you and guarantee the results or ask no pay. Call on or address Professor Birkholz, 1011 Masonic Temple, Chicago, Ill.

Hand this notice to any first class druggist and he will get the remedy for you at once, if he has not got it in stock.

Did You Ever Meet a Truly Good Man?

No doubt you think you have, but we'll wager a dime or so he did not have the rheumatism. If he did, he swore occasionally, and no man can be truly good who swears occasionally. Health, nerve tranquility and morality are apt to go hand in hand. Painful spasmodic disease like rheumatism and neuralgia ruin the temper, make one morose, peevish and rebellious. This is a sad fact, but it is none the less true. I have away the pain, mollify the temper, restore tranquility of mind in cases of rheumatism and neuralgia with Hostetter's Stomach Bitters, an anodyne and tonic of comprehensive range and effect. It healthfully stimulates the kidneys, bladder, stomach, liver and bowels when inactive, and induces sleep and appetite. A very quieting effect, not an unnatural, stupefying one like that of an opiate, is produced by a wine-glassful before retiring. It is incomparable in malarial disease.

THE WHEEL.

Road racing in the suburbs of Paris is becoming such a nuisance that it is stated the police are about to take steps to put a stop to it.

The millionaire racing man, Max Lebauday, is said to be the "angel" who is putting up more than \$20,000 for Zim's amateur cloak.

The question as to whether the photograph is the only true way to decide the finish of a close race can only be answered in the negative.—Ex.

Choppy Warburton, interviewed, believes that the best man France can put into the field against Zimmerman is the veteran Medinger.

An Anglo-French team race has been arranged in Paris. Barden, Edwards and Harris will represent England against Fournier, Louvet and Antony for France.

At the Charleston, S. C., wheelmen's meet the other day, a handicap half-mile race for messenger boys was given. Naturally it was a slow walk-over; time, 11m. 5s.

Lamb, who rode second to Ashinger in Madison Square Garden, is out with a challenge to ride any man, anywhere, for any sum, at any distance.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages, but notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the spinal cord, near the base of the brain and so sensitive is this portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headaches, dizziness, neuralgia, confusion, pressure, blues, mania, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle. DR. MILES' RESTORATIVE NERVINE is sold by all druggists on a positive guarantee, or sent direct by DR. MILES MEDICAL CO., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It contains neither opiates nor dangerous drugs.

GEORGE B. STEPHENS.

A Promising Player of the Western League.

George B. Stephens, a promising young professional pitcher, was born Sept. 27, 1867, at Romeo, Mich. It was not, however, until after he went to Detroit that he learned to play ball. After playing a few games he became convinced that pitching was his forte, and no sooner had he formed this idea than he began at once to master the art of curving the ball. It was not long before he gained quite a local reputation as a manipulator of the sphere, for he was quite a dispenser of curves, shoots and drops. His excellent work in the pitcher's box for several of the leading amateur teams of Detroit gained him such renown that his services were eagerly sought after by managers of minor league teams. After receiving several tempting offers he finally accepted his first professional engagement with the Columbus club, of the Ohio State league, in 1887. Stevens began the season 1888 with the Milwaukee club, of the Western association, but finished it with the Davenport club, of the same association. The Davenport club taking the place of the Minneapolis club, which had withdrawn from the Western association about the middle of the season. He took part that year in the thirty-four championship games and ranked well up in the official pitching averages of that association. In 1889 Stephens joined the Burlington club of the Central Interstate league. He remained with the Burlingtons throughout that and the following season. In 1891 Stephens migrated to California, and while there joined the Oakland club of the California league. Stephens returned east again and in 1892 joined the Columbus club, of the Western league, taking part that year as a pitcher in twenty-six championship games and ranked fourth in the official fielding averages of that

GEO. B. STEPHENS.

league. His excellent work that year led Manager Schmelz to sign him for his Chattanooga team in 1893. Stephens did still better work last year as a pitcher than he had done at any preceding season. This year he is a Western leaguer.

GREAT . HAT . SALE

Friday and Saturday, May 11 and 12.

He makes all his promises good and never advertises anything he cannot produce. He will give \$50 to any person who calls on him and does not find just exactly what he has named. Loaded, like a ship to the waters edge, with the finest, and newest designs in hats of all kinds, he proposes to sell them tomorrow and Saturday. Competition can't touch him. His prices are beyond their conception. His selling prices are below their buying prices. By hoodwinking the public they pretend to compete with him. But its like "monkeying with the buzz saw." They are bound to hurt themselves. The public sooner or later get onto their methods and give them a wide berth. Ziegler guarantees a saving of 25 per cent on every article he sells. Handling as he does, more goods than any other clothing concern in the city of Janesville, he is enabled to buy for less and consequently can undersell any other house.
